Authorization for this examiner's amendment was given in a telephone interview with Ken D'Alessandro on February 15, 2008.

The application has been amended as follows:

32. (Currently Amended) The additive package of claim 20 further comprising a dispersant comprising one or more components selected from the group consisting of wetting agents, amine oxides, bio-polymer surfactants, amine othoxilates and dinonylphenol ethoxylates.

2. The following is an examiner's statement of reasons for allowance: The prior art of record fails to teach or suggest the claimed invert fuel emulsion and additive package. The combination of the primary surfactant, block copolymer, polymeric dispersant and coupling agent is not rendered obvious or anticipated by the prior art of record.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
